

New Albany Safety Seminar

Seminar will start at 6:00 pm. We will discuss the responsibilities of the Pilot/Operator relative to required documents in the aircraft and the determination of airworthiness and "safe for flight" from the Pilot/Operator's perspective. Also, what is Type Design, or a Type Certificate Data Sheet, where can they be found, and why should I care?

Directions: When approaching the terminal, look for the hangar to the south where people are gathering.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
